

Kim Reichhelm's SKI ADVENTURES

“Some of the best skiing in the world is where most skiers don’t go, the super steep, the narrow chutes, tight trees and cornices. It’s challenging terrain that requires strong skills to feel confident and safe. After winning two World Extreme Skiing Championships and skiing Alaska for 19 years, I have the knowledge and experience of big mountain skiing to help you take your skiing to the next level. Steep Camps are designed to help skiers work on their techniques in a safe, controlled environment. Alta is the perfect place to practice these skills. A large variety of slopes to choose from allows for terrain progressions suitable to different comfort levels. My hand picked staff, including Greg Harms and two Alta ski patrol, will insure that you’ll walk away with confidence and new skills that will put a smile on your face... ready to take on the deepest snow and the steepest slopes you can find.”
